

Neutral tasting powder containing a mixture of medium chain triglycerides (MCT)

Product USPs

- Neutral in taste
- Provides rapidly available energy
- 100% MCT fat in the total fat content
- 10 g MCT, 100 kcal, 1.5 g fiber, 1 g protein in a single serving packet

Definition and Indication:

FOOD FOR SPECIAL MEDICAL PURPOSES

For the dietary management of intractable epilepsy on a ketogenic diet, glucose transporter type 1 deficiency syndrome, pyruvate dehydrogenase deficiency, and fat maldigestion and malabsorption, long-chain fatty acid oxidation disorders, or other conditions requiring a source of MCT fats.

Ingredients:

medium chain triglyceride 75% (from palm and coconut fat in varying proportions), soluble maize fibre, sodium caseinate (**milk**), anti-caking agent: silicon dioxide; emulsifier: sodium tripolyphosphate.

Important notices

Use under medical supervision.
Not for parenteral use.
Not to be used by individuals who do not have the specific disease.
Suitable from 3 years of age onwards. Not suitable as a sole source of nutrition.

Dosage

To be determined by the clinician or ketogenic dietitian and is dependent on the age, body weight and medical condition of the patient. MCTfiber should be introduced slowly into the diet as rapid absorption of large intakes may cause vomiting or diarrhoea.

Contraindications

MCTfiber should not be used if ketoacidosis/acidosis, decompensated liver cirrhosis, chronic kidney disease is suspected or in people with medium chain acyl-CoA dehydrogenase deficiency (MCADD).

Preparation guidelines

Add MCTfiber to the desired food and beverages and stir until the powder has dissolved. Standard dilution: The recommended concentration is 30 ml of water plus 13.3 g sachet.

Storage

Unopened: Store dry at room temperature.
Opened: Use opened sachet immediately. Unused powder can be stored in an airtight container, or closed with a clip, and used within 24 hours.

Nutritional Declaration
